

M20/7020 Assembly Instructions

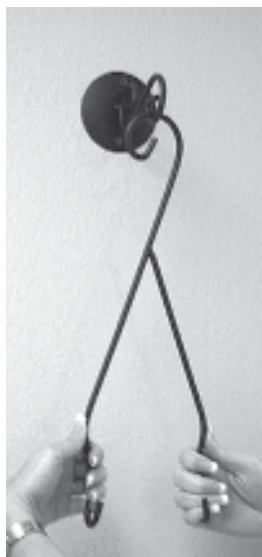

Mount the M30 wall hanger into the wall or ceiling by screwing a screw into the top and bottom portion of the hanger with the scroll facing down as shown.

For best results screw into a stud or use toggle screws.
*** M30 may be hung from the wall or ceiling***

Hook the metal arm (M20) into the scroll of the M30 so it hangs.

Slightly pull the two arms apart so the vase will hang evenly.

The amphora vase should hang freely. The neck of the vase should not touch the metal.

Once the assembled piece is hanging you are ready to fill this unique wall sconce with your favorite floral arrangement.

Display/Decorating ideas:

Decorate your walls with this european design that is sure to help you bring the outdoors in. This is elegantly displayed with floral arrangements such as gerbera daisies and bear grass. For extra impact, display this item in groups of two or three.
